AWS CERTIFIED SOLUTIONS ARCHITECT | AWS | DEVOPS | LINUX |

SUMMARY

I am a dedicated and skilled AWS Engineer with **five years** of extensive **IT expertise**. For the past **three years**, I have focused on **AWS cloud DevOps engineering**. It makes me happy to be an **AWS Certified Solution Architect**. My goal is to land a demanding position in a dynamic company where I can make the most of my knowledge of **Linux and DevOps**. As I continue to learn more about cloud computing technologies, I'm keen to contribute significantly to the design, deployment, and administration of cloud infrastructure.

SKILLS

- AWS
- Linux
- Docker
- Apache, Nginx
- Jenkins
- Terraform
- shell scripting
- Cloudwatch, Nagios
- WAF – Cloudflare, Sucuri
- Code commit, Git
- ubuntu, centos

WORK EXPERIENCE

Fcoos Technologies Private Limited | Bangalore

Cloud Engineer | 07/2021 - Present

- Successfully architected, deployed, and managed cloud solutions on AWS, including EC2, ECS, ELB, EBS, S3, VPC, IAM, LINUX, RDS, CloudWatch, CloudFormation, Elastic Beanstalk, and Autoscaling.
- Proficient in setting up and managing Linux servers on the Amazon platform, ensuring seamless operations and optimal functionality.
- Skilled in designing scalable and resilient cloud architectures, maximizing resource utilization and cost-efficiency to meet business needs.
- Proficient in configuring and deploying industry-leading Web Application Firewalls (WAFs) like Cloudflare and Sucuri, ensuring enhanced security measures for web applications.

Evolutionary Algorithms Private Limited | Bhubaneswar

Technical Engineer | 03/2020-04/2021

- Played a pivotal role in establishing the entire cloud-based distributed computing infrastructure for the application, contributing to its seamless operation and scalability.
- Demonstrated expertise in deploying applications on Web and App Servers, including Apache Tomcat and WebLogic application server, ensuring smooth and efficient functioning of web applications.
- Possesses a strong working knowledge of Linux/Unix, adept at shell scripting, and proficient in adapting and manipulating scripts to meet specific requirements.

Navedas Technology Solutions Private Limited | Bhubaneswar

Data research analyst | 02/2018 - 03/2020

- Took on the responsibility of conducting extensive research to build a comprehensive database within the assigned geography, leveraging various sources such as Google, LinkedIn, Sales Navigator, Hoovers, Bloomberg, and other Social Media platforms.
- Held the responsibility of conducting a full life cycle analysis, encompassing the identification and analysis of business requirements for a retail business.
- Proficient in fetching validated information of retailers, ensuring accurate and reliable data for informed decision-making.
