

BIJU BEHERA

SENIOR CONSULTANT | AWS | DEVOPS | TERRAFORM | CLOUD AUTOMATION

+91 7751009113 | bijubehera022@gmail.com | Bangalore | linkedin | bijucloud.cc

PROFESSIONAL SUMMARY

AWS and DevOps Engineer with 8+ years of IT experience delivering cloud infrastructure, Infrastructure as Code, CI/CD automation, configuration management, Linux administration, and production operations. Senior Consultant at Infosys with hands-on experience designing, deploying, managing, and troubleshooting scalable AWS environments. Skilled in Terraform, Jenkins, Ansible, and AWS services, with a practical focus on reliable automation, incident resolution, and validated AI-assisted engineering.

TECHNICAL SKILLS

Cloud: AWS

Infrastructure as Code: Terraform, AWS CloudFormation

CI/CD: Jenkins

Configuration Management: Ansible

Containers: Docker

Monitoring: CloudWatch, Prometheus, Grafana

Operating Systems: Linux, Ubuntu, CentOS

Scripting: Shell Scripting

Version Control: Git, AWS CodeCommit

Web & Security: Apache, Nginx, Cloudflare, Sucuri WAF

PROFESSIONAL EXPERIENCE

Senior Consultant

INFOSYS | Bangalore | 09/2023 - Present

- Design, implement, and maintain AWS cloud infrastructure across sandbox, lab, pre-production, and production environments using Terraform and Infrastructure as Code practices.
- Support on-premises-to-AWS application migrations through infrastructure provisioning, deployment, and troubleshooting.
- Develop reusable Terraform modules for EC2, Auto Scaling Groups, Network Load Balancers, and Amazon EKS to standardize infrastructure provisioning.
- Provision and operate EC2, VPC, load balancers, IAM, Auto Scaling, CloudWatch, RDS, S3, EBS, and AWS Budgets.
- Build and maintain Jenkins CI/CD pipelines for consistent infrastructure and application deployments across environments.
- Troubleshoot AWS, Terraform, Jenkins, Ansible, and deployment issues; perform root-cause analysis and implement corrective actions.
- Collaborate with application, development, infrastructure, and operations teams on cloud deployments, incidents, environment changes, and production support.
- Use ChatGPT, Claude, and GitHub Copilot for research, scripting, documentation, and solution analysis while validating outputs before implementation.

Cloud Engineer

FCOOS TECHNOLOGIES PRIVATE LIMITED | Bangalore | 07/2021 - 09/2023

- Architected, deployed, and managed AWS cloud solutions using EC2, ECS, ELB, EBS, S3, VPC, IAM, Linux, RDS, CloudWatch, CloudFormation, Elastic Beanstalk, and Auto Scaling.
- Set up and managed Linux servers on AWS to support reliable application operations.
- Designed scalable, resilient cloud architectures with attention to resource utilization and cost efficiency.
- Configured and deployed Cloudflare and Sucuri Web Application Firewalls to strengthen web application security.

Technical Engineer

EVOLUTIONARY ALGORITHMS PRIVATE LIMITED | Bhubaneswar | 03/2020 - 04/2021

- Established and supported cloud-based distributed computing infrastructure, improving application reliability and scalability.
- Deployed applications on Apache Tomcat and WebLogic and supported Linux/Unix environments and shell scripting.

Data Research Analyst

NAVEDAS TECHNOLOGY SOLUTIONS PRIVATE LIMITED | Bhubaneswar | 02/2018 - 03/2020

- Conducted market and business research, analyzed retail requirements, and validated retailer information using professional research and data sources.

CERTIFICATIONS

- GitHub Copilot | GH-300 | 2026
- Claude Certified Architect Foundation | 2026

EDUCATION

- Bachelor of Technology, Electrical Engineering | CUTM | 2013 - 2017 | 82.7%
- +2, Science | MCNL | 2011 - 2013 | 54%
- 10th | BSE | 2011 | 74%

ACHIEVEMENTS

- Represented Odisha in the 57th National School Kickboxing Championship.
- Awarded a Silver Medal in the All Odisha Kickboxing Championship.
